A seminar on Post flood health hazards

Health club, Department of Biotechnology organised a seminar in 'Post flood health hazards' on 3rd September 2018. The seminar aimed at educating school students on various vector and water-borne diseases. The program was inaugurated by HOD, Dr. K. K. Elyas. The class was given by PhD Scholars of the Department, to the school students of Govt. Model HSS Calicut University campus. The seminar focused on the brief introduction of microorganisms and their effect on health. It also included various methods that can be adopted to prevent such kinds of infections and the importance of personal hygiene. The seminar was followed by an interactive session and the students were asked to share their experiences. The program ended with a vote of thanks from T. Deepa Kumari, MSc. student.
