

DEPARTMENT OF BIOTECHNOLOGY
UNIVERSITY OF CALICUT
STUDY TOUR- MUDUMALAI NATIONAL PARK

The Department of Biotechnology organized a one-day trip Mudumalai National Park located in the Nilgiri Mountains of Tamil Nadu that precincts the states of Karnataka and Kerala. The group of post graduate students of 2018-'20, 2019-'21 batch were guided by Dr. C. Gopinathan, Associate Professor. The vast expanse of the reserve was shrouded with thriving vegetation that serve as a habitat for various species of plants, animals and birds. The students had tremendous interaction with nature.

The students were also taken to The Tea Factory and were briefed on the history of tea leaves and manufacture. They were acquainted with various facets involved in the preparation and processing of tea leaves. The students expressed their interests in agricultural aspects of the process.
